Description

I'm going to release this bug but I don't want to forget about it:

User isProgram marking fails on the DB side because of some DB field constraints hard coded into the users table. This will require changing the table which will need to be test on elog2 before actually doing on elog1.

History

#1 - 12/01/2016 12:14 PM - Kyle Hazelwood

- Target version set to Version 1.0

Fixed in new elog version.

#2 - 12/01/2016 12:15 PM - Kyle Hazelwood

- Status changed from Assigned to Closed
